Rock-on

fingers

Fingers play an important role while consuming digital and technological gadgets.

WE click...
touch...
feel...
carry...
work...
play...
move...

None other than with Fingers.

And, as we ponder a little more, Fingers communicate so much more.

We are sure, you make gestures with your fingers, consciously or subconsciously by

- Showing direction
- Bringing a point of view
- Expresses love
- On a cricket field with raised fingers - Either disappoints or makes us happy and so on...

Fingers communicate a lot... It's a language!

To establish "FINGERS" synonymous with "A New Language of Technology" is our endeavor.

FINGERS started by a team with over 100 years' of combined experience in Digital Accessories and Peripherals. And a track record of innovation and latest technology gadgets. At FINGERS, it will only be taken to the next level.

FINGERS products are crafted with love and highest attention to detail by a Dynamic Team that believes in being MAD - Making A Difference. A difference in the way you feel, play and experience Quality Technology. We believe technology should be Trendy and Innovative, yet speak in a way that moves and inspires you. And we stand for what we believe - A New Language - breaking the norms and stereotypes.

With immense happiness, we are excited to share - At a launch itself, FINGERS had 7 First timers in India, and out of that a staggering 4 for the First time in the World!

THE TOUGHEST

Speaker in India

DROP, KNOCK, SHOCK

Music still Rocks!

When the going gets tough, the tough get going! Now get going with Knockout – India's toughest speaker. Shockproof? Drop Proof? Crush-proof?

Knockout is virtually indestructible and comes with a super rugged exterior so your music still plays even when your speaker is dropped or knocked! It offers an exhilarating sound experience with a bass so powerful and deep compared to any other speaker of this size and weight. That's not all - Pair two Knockout speakers, enabled with TWS³ technology for some window shattering bass and roof blowing sound! Limits are meant to be broken, your Bluetooth[®] speaker isn't.

Record (up to 250 secs) and Play (auto repeat)
9 pre-loaded playlists (for singing your songs, birthdays & anniversaries fun)

¹Can withstand up to 18 drops with up to height of 1 m.

²Tested under ideal conditions and in Bluetooth® playback mode. Playback time may vary depending on usage, playback mode and volume levels.

³TWS function can only be enabled to pair two same portable speakers.

⁴Tested under limited conditions. Do not immerse in liquid. (Sweat resistant/Sweat proof/Sealed Membrane)

⁵FINGERS Pro Wireless PD-DC supports Power Delivery technology (18W Max). It can even charge laptops using Type-C to Type-C cable.

⁶Charging time for higher voltage devices may be longer than its original charger due to max 18 W Power Output.

⁷Power Delivery is a fast charging technology, supported by certain iOS and Android devices, that delivers much higher levels of power than standard charging.

⁸Handle with Care and ensure your phone is placed correctly.
